- Touch typing skill

WORK EXPERIENCE

Tong Hua Asset Management Company Limited

Aug 2024 - Present

Full Stack Developer

- Proficiency in HTML, CSS, JavaScript, TypeScript, and frameworks like React and Remix.
- Experience with server-side languages JavaScript, TypeScript, and backend tools like Supabase.
- Knowledge of SQL (PostgreSQL) databases for storing customer and debt information.
- User Authentication: Implementation of secure user authentication and authorization mechanisms.
- Skills in data analysis for monitoring debt statuses and generating reports.
- Ability to create and print payment slips and other necessary documents.
- Implementation of robust error handling and validation processes to ensure data integrity.
- Familiarity with payment gateways for handling debt repayments.

Internet Thailand Public Company Limited

JUL 2022 - JUL 2024

Software Engineer

- Proficiency in HTML, CSS, JavaScript, TypeScript, and frameworks like React, Vue.js, Next, or Nuxt.
- Experience with server-side languages (e.g., Node.js) and frameworks (e.g., Express).
- Knowledge of SQL (MySQL) databases for storing customer and debt information.
- Developed an online examination registration platform serving 100,000+ users across Thailand for various roles: commissioned and non-commissioned police, police cadets, border patrol police, regional police, OCSC special rounds, assistant teacher positions, teacher licensing, and veterinary licensing.
- Built functionalities for user registration, status tracking, payment processing, PDF generation, exam location display, and result management.
- Ability to create and integrate RESTful APIs for data exchange between frontend and backend.
- Developed and maintained both a user-facing site for registration and an admin portal for agency management.
- Contributed to internal company projects, including Online Recruitment, and Online Payment Services.
- Knowledge of designing and maintaining robust system architectures for high user loads.

INTERNSHIP

Kaennakhon Witthayalai School

MAY 2021 - MAR 2022

- Designed and taught lessons in Computational Science, Basic Python, and Design and Technology.
